Improves the Hearing

The person who is slightly deaf becomes more and more so unless the ear is properly exercised. Just as good glasses relieve the strain upon weak eyes and gradually strengthen them so the wonderful new Globe Ear-Phone, the "Lorgnette," checks the progress and then gradually improves the hearing.

No Cords—No Plugs—No Headband

The "Lorgnette" is light and inconspicuous. It is made in one piece with battery in the handle. No cords, plugs or headband to wear. May be used on either ear.

You are cordially invited to call at our office and test our latest and most improved hearing devices. The "Lorgnette" is guaranteed for 10 years, and during that time we agree to keep it in perfect working order free of charge.

We will make you a liberal allowance on your old instrument in exchange. We will tell you if it can be remodeled for an up-to-the-minute "Lorgnette."

"Take Your Own Motion Pictures!"

Think What a Priceless Treasure in Future Years Will Be a Motion Picture of Your Family, or Friends, Taken Now!

By a Triumph of Inventive Skill and Manufacturing Ability, the great French firm of Pathé Frères (capital 30,000,000 francs, employees exceeding 10,000) has now made it possible for YOU to take the most satisfactory and delightful Motion Pictures and afterward enjoy them with the PATHÉSCOPE in the comfort and privacy of your own Home.

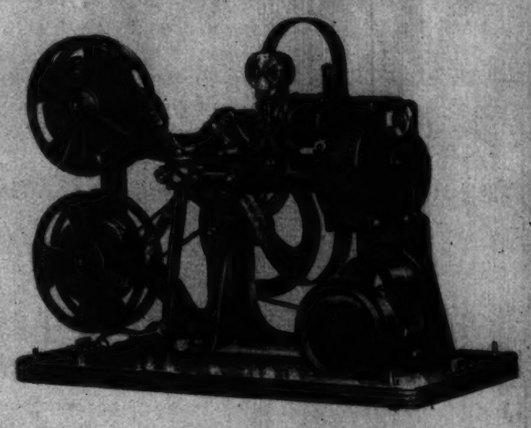
THE PATHÉSCOPE is an extremely simple and compact, yet essentially practical Motion Picture Machine for use in the Home, School, Club, etc. It is not a diminutive model of the large professional machine, but a startlingly original design of projector, which in its simplest form is entirely self-contained, and requires no wiring, no electric connections, no equipment of any kind, but an ordinary table on which to set the machine.

By a remarkably ingenious arrangement, the simple action of turning the handle actuates the film, generates its own (incandescent) electric light, and projects the pictures in *living, fascinating motion* upon the screen.

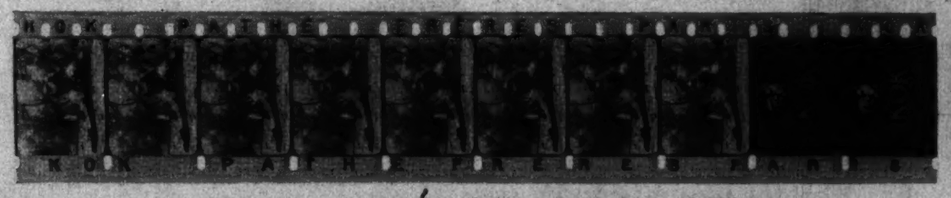
This model will show a four-foot picture, sharp, steady and brilliant, remarkably free from flicker, and equal or superior to the average theatre picture.

Other models, for use where electric lighting current is available, project a six-foot picture, and by utilizing the same current in a small motor even the use of a crank is made unnecessary.

Hand Pathéscope
No Wiring or Electrical Connections Necessary.



The Only Instrument and Film Approved by the National Board of Fire Underwriters for Unrestricted Use. Complete with 4-foot Screen, Carrying Case and Accessories. Price $150.



SPECIMEN OF PATHÉSCOPE NON-INFLAMMABLE FILM

Approved by the United States Government for transmission by Parcel Post. *Celluloid Films are barred.*

One of the great advantages of the Pathéscope is that the special film used is *Absolutely Non-Inflammable.* It cannot under any circumstances take fire and may be handled without the slightest danger. Ordinary film ignites like gunpowder.

The films come wound on reels containing about four hundred feet and each reel usually contains two subjects. Many subjects require an entire reel, some require several reels, while other reels contain three and even four complete and independent subjects.

A programme of four reels (containing five to eight subjects) represents about one hour's entertainment.

The Pathéscope Film Exchanges enable the owner of an instrument to exchange his films *as often as desired,* by the payment of a small charge to cover their deterioration and the maintenance of the Exchange.

By this means a continuous exhibition of fresh interest is always available for every owner. The Pathéscope Exchanges contain subjects to suit every taste, every mood, any age and all occasions. They are being continually augmented by the addition of new and interesting subjects.

The first cost and the Exchange charges for Pathéscope Non-Inflammable Films are much less than for the Inflammable Standard Film.

Film Exchange List on application.

STANDARD (INFLAMMABLE CELLULOID) FILM WILL NOT FIT THE PATHÉSCOPE

The Pathéscope Camera

Opens up an entirely new world of delight for you, your family and your friends

Motor Driven Pathéscope in Cabinet, complete with 6 ft. Screen, Rheostat, Wiring and Accessories..... $250

Live over and over again the great events of your *Foreign Tours, Motor Trips* and other happy occasions by simply throwing them on a screen in living, fascinating action.

With the *Pathéscope* and *Pathéscope Camera* you can reproduce not only the great events of your own life, but you can delight your family and friends with *any* kind of Motion Pictures—Drama, Comedy, Travel or Science. New subjects are always available to every owner in the *Pathéscope Film Exchanges.*

Price $150

The Pathéscope offers the only complete and perfected PRODUCT AND SERVICE covering the entire range of Cinematography. We furnish a simple and perfect Camera, develop and print films, supply a safe and simple projector and furnish an ideal and convenient Exchange Service of the World's best subjects; all at the minimum of expense consistent with the quality of the product.

A NEW PROCESS of PRINTING

AND ITS VALUE TO

ADVERTISERS

This new process of printing, known as rotogravure, makes it possible for The New York Times to give advertisers full-page presentation equal to the finest art copy presented in the advertising pages of the magazines. The advertiser who can get best value out of beautiful pictures will welcome this new process, which, as presented by The New York Times, carries his most attractive advertising to the library tables of nearly a quarter of a million well-to-do homes. A full page in The New York Times has a "bigness" which is impressive, and it brings the advertiser immediately before a compact and locatable audience of the very highest class. Even if the advertiser had the addresses and undertook to print and distribute his own advertising, the postage at one cent a copy would exceed by more than a thousand dollars the cost of an illustrated page. A limited space in this Rotogravure Section is open to advertisers whose announcements are sufficiently attractive to conform to the general character of the special features presented.

PARKER'S METHOD OF HAIR TREATMENT

Special care of the hair at the seashore or mountain should be taken during the summer; neglect may lead to serious complications. My hair treatment stops falling hair quickly. It feeds and strengthens the hair roots — makes the scalp healthy, puts vigor into scanty, dry, brittle, faded hair, gives it splendid gloss and makes it abundant and healthful.
